After working their second game as a senior, they had three fulltime offers for content creator positions with sports properties.

Typical hires are juniors attending San Antonio universities that join us for their Spring semester and their entire senior year as a large majority of the work is in-person. However, the Bowl is willing to consider outstanding candidates outside of San Antonio to work remote from March - July and then in-person August - January as a recent graduate or student enrolled in remote classes or taking a semester off.
